Introducing PROACTOnDemandSM A FIRST in RCA SaaS

Root Cause Analysis is now available for the 1st time ever as a SaaS [Software as a Service] Internet Application

PROACT[®] SaaS requires NO long-term investments in technology infrastructure or staff training to utilize it. It will free up scarce IT resources allowing focus on other priorities. You can begin using PROACT[®] software in a matter of minutes!

Experience the immediate benefits of PROACT[®] software without significant start-up costs and training.

Get started on the most comprehensive analysis tool available today. Instantly begin your Root Cause Analysis by inputting your supporting facts, images and documentation. When you are done, create quality reports with your logo, company information and complete analysis details. Print your thorough report and use the PROACT[®] presentation mode to deliver your final presentation.

PROACT[®] is an entire methodology and software suite dedicated to identifying an organization's most significant annual losses--it supplies the knowledge and tools to identify all the causes and then eliminate their recurrence in the future.

Using PROACT[®] SaaS, organizations can prevent the loss of vital analyses, increase productivity and efficiency of the analysis process, achieve cost effective scalability and improve collaboration amongst analysts to drive project efficiency.

PROACTOnDemandSM Modules

PROACT[®] RCA Only

This option is for those that only want the basic RCA tools. This module follows our PROACT[®] methodology and logic to produce logic trees for any analysis. A great tool to use if you have already qualified adverse outcomes for RCA and need only to house, work and publish your RCA.

PROACT[®] RCA 1A1X

This option is available for One Analysis, One Time. If you are looking for an organized place to load data, work on one analysis, and publish it, this is the option for you. Once you have published your analysis your account is closed. However there is no time limitation to create and work on your analysis - which gives you the edge of perfecting a quality report. This option includes customizable reporting and Logic Tree creation tools.

PROACT[®] Logic Tree Knowledge Management TemplatesTM are available as an additional purchase. The templates database houses over 399 completed logic trees each drilled down to the REAL root causes of the undesirable events. These unique PROACT[®] templates are based on our more than 38 years of RCA experience in just about every industry and will provide a system of "checks-and balances" for comprehensive analyses.
